B&F Manufacturing  
114 Bowsby Sty  
Nanaimo, BC V9R 6Z8

To Whom It May Concern:

We purchased a new "Quadra Jet 225" from B&F Manufacturing several years ago. Our old caustic dunk tanks started leaking and required replacement. We found our old parts cleaners were seldom used and not maintained.

The Quadra Jet changed our maintenance outlook on the methods that we used prior to buying it. All of the trade groups started using it and we have yet to hear nothing but praise on the unit.

The service B&F supplies is outstanding and well appreciated. In my mind the service that they have given us alone is worth the purchase of the washer.

Anyone that is from our department would have the same comments. It is good to see a piece of equipment being utilized like our Quadra Jet and we would recommend it to anyone.

Yours truly,
